

Protecto-Melt

A protective coating for all types of tools and parts
Protecto-Melt is similar to other melted coating products but with
some important advantages

PROTECTIVE

Tough and hard, yet flexible enough to absorb shock.
It resists rust and will not become brittle.
Excellent protection for Milling Cutters, Drills, Saw Blades etc.
as well as for Bearings and other sensitive parts.

SAFE & ECONOMICAL

Low melting temperature of 250° - 300° F.

CONVENIENT

No messy, oily residue - Even on hot days. No odor, no smoke

PRICING

Competitively priced and generally sold in 10, 25, 40 lb. boxes, F.O.B. Scottsdale AZ
With your choice of colors: Red - Green - Blue - Clear

US\$ 3.20/lb.
